

Karta Scholar Integration Analysis

This document outlines the current state of implementation for the **Karta Scholar Talent & Networking Platform**, categorized by the priority levels (Must Have, Should Have, Could Have) defined in the product specification. ---

Executive Summary by Priority

1. Must Have User Stories

These are core requirements that must be integrated for the portal's initial launch. | Story ID | Persona | Story Title | Status | | :--- | :--- | :--- | :--- | | **US-KS-01** | Karta Scholar | Create Professional Profile |  **Partially Integrated** | | **US-KS-02** | Karta Scholar | Upload Resume and Portfolio |  **Partially Integrated** | | **US-KS-03** | Karta Scholar | Share Achievements and Updates |  **NOT Integrated** | | **US-KS-04** | Karta Scholar | Discover Opportunities |  **Partially Integrated** | | **US-KS-05** | Karta Scholar | Receive Direct Interest from Organizations |  **NOT Integrated** | | **US-KS-06** | Karta Scholar | AI-Powered Resume Skill Extraction |  **NOT Integrated** | | **US-KS-07** | Karta Scholar | AI Opportunity Recommendations |  **NOT Integrated** | | **US-ORG-01** | Organization | Create Organization Profile |  **Partially Integrated** | | **US-ORG-02** | Organization | Search Scholars by Domain & Skills |  **NOT Integrated** | | **US-ORG-03** | Organization | Post and Send Opportunities |  **Partially Integrated** | | **US-ORG-04** | Organization | Conduct Networking and Communication |  **NOT Integrated** | | **US-ORG-05** | Organization | AI Scholar Matching & Recommendations |  **NOT Integrated** | | **US-KT-01** | Karta Team | Verify Scholar and Organization Profiles |  **Partially Integrated** | | **US-KT-02** | Karta Team | Match Scholars with Opportunities |  **NOT Integrated** | | **US-KT-03** | Karta Team | Monitor Platform Engagement |  **Partially Integrated** | | **US-KT-04** | Karta Team | Admin Moderation Panel |  **Partially Integrated** |

Detailed Integration Status

1. Must Have Features

US-KS-01 | Create Professional Profile

- **Status:** ⚠️ **Partially Integrated**
- **Details:** Whitelist registration checks and academic profiles (photo, bio, location, university, course, study year, graduation year, skills tags, achievements, extracurriculars text) are fully functional. Domain categorization, interests/certifications, public shareable profile links, and privacy/visibility controls are missing.

US-KS-02 | Upload Resume and Portfolio

- **Status:** ⚠️ **Partially Integrated**
- **Details:** PDF document upload is implemented (saves to a Supabase bucket). However, PDF file-type validation, size limits (5 MB), project/GitHub links, and AI skill extraction triggers are missing.

US-KS-03 | Share Achievements and Updates

- **Status:** ❌ NOT Integrated
- **Details:** No feed, posts submission controls, comment/like system, or pinned achievements features are present.

US-KS-04 | Discover Opportunities

- **Status:** ⚠️ Partially Integrated
- **Details:** Browsing and basic text search of postings (by title, company, description, skills) as well as the Job vs. Internship filter and application flow are functional. Filtering by domain/location/duration, shortlist bookmarking (Saved Posts is a placeholder stub), and push notifications are missing.

US-KS-05 | Receive Direct Interest from Organizations

- **Status:** ❌ NOT Integrated
- **Details:** No mechanisms exist for organizations to initiate interviews, send mentorship requests, message scholars, block/report users, or track interview invitation histories.

US-KS-06 | AI-Powered Resume Skill Extraction

- **Status:** ❌ NOT Integrated
- **Details:** No PDF parsing, AI-based tag extraction, review interfaces, or confirmation dialogues exist.

US-KS-07 | AI Opportunity Recommendations

- **Status:** ❌ NOT Integrated
- **Details:** The dashboard lists the 3 most recently created posts. No matching algorithms, relevance scores, feedback loops (thumbs up/down), or digest notifications are implemented.

US-ORG-01 | Create Organization Profile

- **Status:** ⚠️ Partially Integrated
- **Details:** Companies can configure their name, industry/sector, website, HQ location, contact details, description, and upload a company logo. The profile verification workflow (document review by Karta Team), follow updates button, and "Verified Badge" are missing.

US-ORG-02 | Search Scholars by Domain & Skills

- **Status:** ❌ NOT Integrated
- **Details:** No candidate directory search page exists for company users. Bookmark lists (shortlists) and public student profile pages (which would display their resume and projects) are not implemented.

US-ORG-03 | Post and Send Opportunities

- **Status:** ⚠️ Partially Integrated
- **Details:** Posting forms for full-time Jobs and Internships are functional. Opportunity lifecycle triggers (pause, close, delete, and application status tracking: Applied, Under Review, Selected, Rejected) are integrated. Missing features include mentorship/project/interview listing types, stipend/duration fields, and inviting specific scholars directly with notifications.

US-ORG-04 | Conduct Networking and Communication

- **Status:** ❌ NOT Integrated
- **Details:** In-app messaging, scheduler integrations, meeting triggers, and organization-hostable open networking rooms are completely missing.

US-ORG-05 | AI Scholar Matching & Recommendations

- **Status:** ❌ NOT Integrated
- **Details:** No candidate recommendations, match scores, or one-click candidate invitations are implemented.

US-KT-01 | Verify Scholar and Organization Profiles

- **Status:** ⚠️ Partially Integrated
- **Details:** Admins can suspend (block) or permanently remove (delete) student accounts and whitelist entries. However, the admin verification request queue, document upload inspection (university ID, registration certificates), verified badges, and verification audit logs are missing.

US-KT-02 | Match Scholars with Opportunities

- **Status:** ❌ NOT Integrated
- **Details:** There is no interface to view skill profiles and requirements side by side, review/override matches, manually match scholars, trigger match notifications, track match outcomes, or monitor match conversion analytics.

US-KT-03 | Monitor Platform Engagement

- **Status:** ⚠️ Partially Integrated
- **Details:** The admin dashboard displays basic numerical statistics (total registered scholars, whitelisted counts, partner companies, posted jobs/internships). Missing features include tracking connections made, tracking opportunities by detailed state (progress, filled, expired), regional/domain engagement analytics, misuse indicators, and engagement CSV/PDF export.

US-KT-04 | Admin Moderation Panel

- **Status:** ⚠️ Partially Integrated
- **Details:** Admins can suspend (block) student accounts. However, the reported items queue, reporter/reason details context panel, warnings logging, auto-flagging repeat offenders, and setting community guidelines are missing.
